Taneytown

In 1744 John Diggs gave a 60-acre tract to his son Edward & son-in-law Raphael Taney. After "growing" the tract to

include 7,900 acres, Taney laid out lots and named the future town "Taneytown." The town center formed a crossroads from Baltimore thru Westminster to Taneytown. Well-to-do merchants and craftsmen built houses that still stand today. This tour will introduce you to some history of the previous owners and the architectural styles of several eras.

Union Bridge

Growth in this quaint town was fueled by the arrival of the Western Maryland Railroad in 1861. William and Ann Farquhar settled here in 1735 when William's father granted him 200 acres. Many of the settlers were Quakers. William's grandson named the town "Union Bridge" when local area citizens banded together to build a bridge over a local swamp. The National Park Service has recognized Union Bridge for its wealth of historic buildings. Many of the buildings are listed on the National Register of Historic Places.

CIVIL WAR HISTORY

The rich farmland of Carroll County skirts the Mason-Dixon Line, denoting North from South. Picturesque and serene, this pivotal county remained relatively unscathed during the two years the Civil War raged here.

Union commanders were aware of the strategic value of this rolling farmland. The recently completed Western Maryland Railroad's depot in Westminster meant much needed supplies could come in from Washington and Baltimore. The Union Army of the Potomac set up its rail head and supply base

CORBIT'S CHARGE REENACTORS

in Westminster where it remained during the course of the war. Supply lines were established and guarded; residents became accustomed to Union troops and supply wagons in and around their once peaceful town.

With Confederate troops converging from the north and west, Major General George G. Meade, Commander of the Army of the Potomac, developed a plan to protect Baltimore and Washington. If the Confederate Army moved south, the "Pipe Creek Plan" would create a defensive shield behind Pipe Creek, which flows west across Carroll County. Meade's army began moving northeast from Frederick to position troops in the hills outside Manchester, as described in the "Pipe Creek Plan". Though they didn't know yet, these soldiers were marching on the roads to Gettysburg. Downtown Westminster, the Farm Museum and Union Mills Homestead present reenactments of these events throughout the year.

CIVIL WAR DRIVING AND WALKING TOURS

Free brochures are available through the Visitor Center at 1-800-272-1933 or on the website www.carrollcountytourism.org.

Carroll County's involvement in the Civil War can be traced through walking and driving tours with stops at the sites of skirmishes and troop encampments as both the Union and Confederate armies made their way to and from the Battle of Gettysburg.

There are two driving tours to help navigate the county. The first tour, "Carroll County, Maryland: Roads to Gettysburg," helps the visitor to navigate the movements of over 60,000 troops from the southern end of the county up to Gettysburg. The second tour, "Gettysburg: Invasion and Retreat" is a much broader look at the June- July 1863 Campaign including surrounding counties. This map guides the visitor along the armies' paths, stopping at

18 markers with illustrations, photos, and interesting stories about the impact of the War on local citizens and the day-to-day stories of soldiers who marched toward the epic Gettysburg battle. Follow the bugle trailblazer signs to the 18 wayside markers.

In addition to the two driving tours, the visitor may experience the Civil War through a self-guided walking tour, "Corbit's Charge," on the Main Street of downtown Westminster. This walking tour, written by Tom LeGore, provides the background of "a small, but extremely important cavalry skirmish which took place in Westminster on June 29, 1863. The clash on the edge of town between General J.E.B. Stuart's cavalry and a small unit of the Delaware cavalry was a significant factor in slowing down the General's march. Instead of proceeding into Pennsylvania to inform General Robert E. Lee about the major Union troop movements, Stuart's cavalry was delayed long enough to make it advisable to spend the night in the Westminster area. Historians have often

wondered whether the results of the Battle of Gettysburg might have been different if Stuart had arrived before July 2nd."

HEART OF THE CIVIL WAR HERITAGE AREA

As part of our efforts to tell the Civil War story in context, Carroll County has

partnered with Frederick and Washington Counties (to our west) to form one of Maryland's Heritage Areas: the Heart of the Civil War Heritage Area (HCWHA). These three counties contain stories of families torn apart as sons went off to war to fight for their beliefs. Many of the buildings are still standing today where South met North. With the HCWHA brochure, visitors can explore the three counties discovering the full impact the Civil War had, not only on this region, but on the entire nation. Copies of the brochure, "Heart of the Civil War" may be picked up at the Carroll County Visitor Center or mailed.
